- Skin: Wash with soap and water;
- Inhalation: Remove person to fresh air. Get medical attention if irritation persists.

DIRECTIONS FOR APPLICATION

PRIMO CL is designed to be custom applied through an approved application device by a retail location that has been trained in the proper methods of handling and applying inoculant to soybeans. Please read all directions and specifications carefully before using this product.

- Use PRIMO CL to inoculate soybeans only.
- Use before the expiration date marked on the package.
- Label seed with the same expiration date if intended for resale.
- Ensure treater has been cleaned and properly calibrated prior to use.
- Shake **both** containers well before use.
- Pour **both** containers into mix tank.
- Agitate or recirculate liquid mixture to ensure proper distribution of bacteria.
- Prepare only as much PRIMO CL as will be used that day.
- Apply PRIMO CL at a rate of 74 mL per 45.4 kg (100 pounds) of seed, or 34 mL per 140,000 seeds based upon 6,600 soybean seeds per kg. Adjust application volume proportionately for other seed counts.

- Consult a Verdesian representative or the Verdesian website for a complete list of compatible seed treatments.
- Protect inoculated seed from drying winds and direct sunlight.
