

FUNGI-PHITE®

A VERDESIAN NUE SOLUTION™

Fungi-Phite® is a fast-acting premium phosphite fungicide proven to help take down diseases before they take hold of crops.

When environmental conditions are just right for disease and the stress that comes along with it, Fungi-Phite helps to fight Phytophthora, Pythium, downy mildew and brown rot, as well as blue and green mold and other crop diseases in 20 varieties of crops including citrus, leafy and fruiting vegetables, berries, brassicas and tree nuts, as well as turf and ornamentals.

CROP DISEASE MANAGEMENT

- Suppresses and controls over 20 active diseases
- Effective and proven results on more than 20 crop varieties
- Effective on turf and ornamentals
- Proven suppression/control of Phytophthora, Pythium, downy mildew, brown rot, and vomitoxin (DON) reduction

CHEMISTRY

- Increases production of natural fungicides (phytoalexins)
- Low environmental toxicity
- Proprietary Verdesian technology keeps PO₃ stable, stability maximizes the effect of the phosphite and reduces phytotoxicity
- Registered for use as a fungicide

APPLICATION

- Foliar spray (aerial and ground), soil drench, soil incorporation and bare root drip
- Tank-mix compatibility with micronutrients and pesticides
- Effective for both specialty and row crops

CROP EFFECTIVENESS

- Avocado, coconut, berry, vegetable, brassica, cereal, forage, fiber, citrus crops, coconuts, curcubit, fruiting vegetables, grapes, herb, spice, leafy vegetable, legume, oil, peanuts, pineapple, pome fruit, potatoes, root and tuber vegetable, stone fruit, strawberry, tree nut, olive, kiwi, ornamental and other crops. See the Specimen label for a complete list of applications by crop
