

LYRA™

A VERDESIAN NUE SOLUTION™

New Nitrogen management solution for fertigation.

Comprised of Verdesian's copolymer, **Take-Off**, and **Plus** technologies that have repeatedly produced reliable results in many Verdesian products, **LYRA™** is formulated for fertigation applications in specialty and row crops. Applied in conjunction with fertigated Nitrogen, LYRA has produced significant yield benefits in product trials across many crops and geographies.

PRODUCT BENEFITS

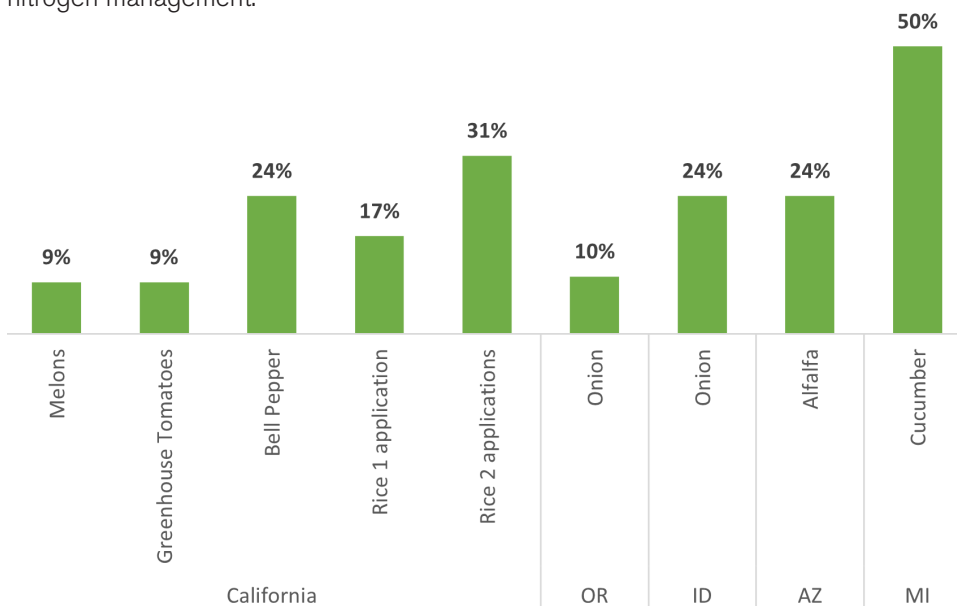

- Improves nutrient availability and uptake
- Optimizes fruit set and fruit quality
- Enhances abiotic stress tolerance
- Improves nutrient availability by mitigating nitrate leaching

INSTRUCTIONS

- LYRA is intended for application in proportion to and in conjunction with applied nitrogen
- LYRA can be used on a wide variety of specialty crops (see label for details)

TRIAL RESULTS

Crop trials show a strong yield improvement against the grower standard practice of nitrogen management.

REGION
US

CROP
Specialty and field crops

TIMING
In conjunction with any Nitrogen application

RATE
0.216 fl/oz (6.4 ml) per unit of Nitrogen per acre

PACKAGE
2.5 gal, 265 gal, bulk
