

# accolade®

A VERDESIAN NUE SOLUTION™

## More roots. More uptake. More yield.

Accolade® is a premium inoculant growth promoter that delivers massive numbers of rhizobacteria to the root zone for maximum benefit to the emerging seedling and throughout the growing season. Accolade will cause plant to produce more roots and root hairs further and deeper in the soil in order to increase nutrient, mineral and water in-take. Ultimately, Accolade produces plants that are more efficient, stress tolerant and produce higher yields.

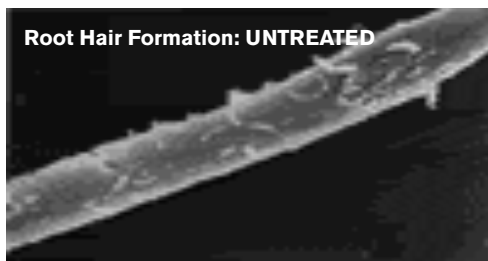

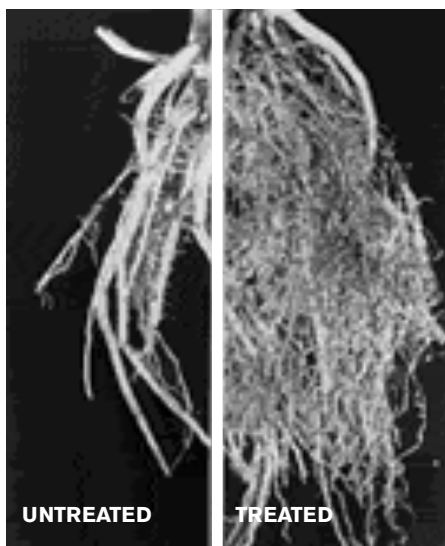

### ACCELERATED ROOT GROWTH

- Results in a 43% increase in root mass
- Increases water, mineral and nutrient uptake efficiency, leading to improved root mass development and drought tolerance

### HOW DOES IT WORK?

The photos below show the results of greater nutrient availability and uptake on root hair formation and root growth.

- Nitrogen Fixation
- Siderophore Production
- Plant Nutrient Sequestration
- Phosphorous Solubilization

### CROP

All crops and organic certified

### RATE

Seed applied, each 10.4L case;  
- treats large & medium seeds  
117bu (7000lbs)  
-small seeds (ie. Canola & flax)  
1100 lbs  
Liquid in furrow;  
-60 ac/ 12" spacing, 200 ac/  
30" spacing (see rate card)

### PACKAGE

Each case treats 117 bu grain & pulses; 1100 lbs. for brassica sp. add 10.4L bladder

### FLEXIBILITY

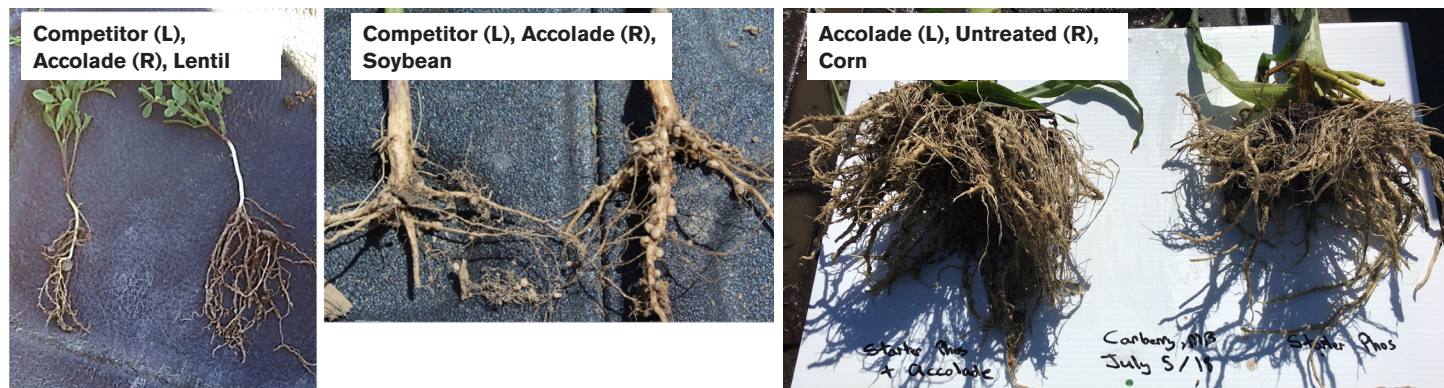

-tank mixable with almost all treatments & fertilizers  
-up to 220-day time on seed found in Primo GX2, other VLS products

## SUPERIOR PERFORMANCE

- Distinctly noticeable root mass increase
- Noticeably healthier plants, resisting stress and utilizing the nutrients available
- 90% trial wins with a typical 10% yield increase

## SEE THE ACCOLADE DIFFERENCE

## PROVEN PERFORMANCE

CORN - ALTONA, MB 2016	
Check	144 bu/ac.
<b>Accolade</b>	<b>157 bu/ac.</b>

OATS - HALSBADT, MB 2017	
Untreated	174 bu/ac.
<b>Accolade</b>	<b>185 bu/ac.</b>

BARLEY, STOUGHTON, SK 2019	
Untreated	68 bu/ac.
<b>Accolade</b>	<b>76 bu/ac.</b>

### Verdesian Life Sciences makes farming more efficient, more sustainable, and more profitable.

Verdesian Life Sciences develops nutrient use efficiency and management technologies to enhance crop uptake, reduce nutrient losses to the environment, and improve yields.
