

CROP

Corn, Soybeans, Cotton,
Wheat, Alfalfa, Milo,
Peanuts, Rice,
Small Grains,
Sugar Beets, Fescue

TIMING

Planter box treatment,
seed over-treatment

RATE

Corn: 8oz per 100lbs
of seed; Soybean/
Alfalfa: 4oz per cwt of
seed; Winter Wheat:
4 oz/cwt of seed;
Other Crops: See label

PACKAGE

25lb. tubs, 5lb. pail

**CERTIFIED FOR
ORGANIC USE**

Apply nutrients and biostimulants directly to the seed.

SEED+ Graphite is a nutritional seed treatment that improves germination, crop emergence, seedling vigor, and plant tolerance under abiotic stress, leading to higher yields. With a full nutrient package to establish a strong start and biostimulants to mitigate abiotic stress, SEED+ Graphite helps crops push through environmental variability to maximize yield potential. A blend of talc + graphite enables excellent seed lubricity and placement through nearly every planter delivery system. SEED+ Graphite is certified for organic use.

<p>1 Talc + Graphite for efficiency at planting</p> <p>Improves flowability and reduces bridging</p> <p>Dries seed and reduces static electricity</p>	<p>2 Micronutrients to support seedling emergence and a robust start</p> <p>Improves emergence and seedling vigor</p> <p>Supports season-long plant development</p>	<p>3 Biostimulants and Metabolites to set crops up for season-long success</p> <p>Mitigates abiotic stressors</p> <p>Fosters photosynthetic activity and carbohydrate production</p>
--	--	---

SEED+ GRAPHITE – EARLY SEASON ADVANTAGES

- Dry powder formulation for easy on-farm application in the planter box
- High antioxidant activity
- Provides essential nutrients for improved plant growth, development, and vigor
- Increased prominence of fine root hairs
- Supports seedlings by protecting plant cell function during harsh environmental conditions

SEED+ GRAPHITE – PROTECTION FOR ABIOTIC STRESSORS

- Cold
- Heat
- Drought
- Excess moisture
- UV radiation

METHOD OF APPLICATION

SEED+ Graphite is conveniently applied directly to seeds in the planter box at the time of planting. Apply SEED+ Graphite the same way you apply seed lubricants – no new equipment needed. (See product label for details.)

GO BEYOND TALC AND GRAPHITE

Developed with proprietary technology from Verdesian Life Sciences, the three components in **SEED+ Graphite** nutritional seed treatment/lubricant deliver efficiency at planting, a robust start for the crop, and defense against early season stress. Use as a talc/graphite replacement and apply right in the planter box.

SEED+ PERFORMANCE IN CORN

n=22, 110 replications, trials located in IA, IL, KS, MN, NE, OH, SD, TN, WI, MD, MN.
Assumes corn price at \$5.50/bu and Seed+ Graphite application at \$3/A.

SEED+ PERFORMANCE IN SOYBEAN

n=20, 80 replications, trials located in IA, IL, KS, MN, NE, OH, SD, TN, WI, MD, MN.
Assumes soybean price at \$14.00/bu and Seed+ Graphite application at \$3/A.
